Ocean Fun

Baby Beluga

Baby beluga in the deep blue
She swims so wild and she swims so free
with the sky above and the sea below
and the little white whale on the go!
Baby beluga, baby beluga!
Is the water warm? Is your mother home,
with you so happy?

A Sailor Went to Sea

A sailor went to sea, sea, sea
to see what he could sea, sea, sea!
But all that he could sea, sea, sea
Was the bottom of the deep blue sea, sea, sea!

Bubble, Bubble, Pop

One little red fish swimming in the water,
swimming in the water, swimming in the water.
One little red fish swimming in the water,
bubble, bubble, bubble, bubble, POP!
Two little blue fish...
Three little yellow fish...
Four little purple fish...
Five little orange fish...

Baby Shark

Baby shark, doo, doo, doo, doo, doo, doo
baby shark doo, doo, doo, doo, doo, doo
Baby shark, doo, doo, doo, doo, doo, doo, Baby shark!
Mommy shark...Daddy shark... Grandpa shark...Grandma shark...
Let's go hunt doo, doo, doo, doo, doo,doo...
Run away doo, doo, doo, doo, doo, doo,
safe at last doo, doo, doo, doo,doo,doo
It's the end doo, doo, doo, doo, doo, doo...
Once upon a time there was a silly captain who decided to sail in a boat made of paper. Even though he was warned, he didn't believe what his friends told him.

The captain sailed on the sea until suddenly a storm appeared, and CRASH! A lightning strike hit the prow of his boat and broke a piece off!

The captain decided to look for land. He sailed and sailed, until he got close to land, but he hit a rock. CRASH! The stern broke off!

By now, the boat was in very bad shape. The man was almost to land, when, with a loud WHOOSH, a wave crashed over his boat and ripped the mast right off!

Waves crashed over the boat! At the end, the only thing left was the captain's shirt!
**Watercolors 3 Ways**

**Old Markers**  
Plastic Cups  
Water  

Fill plastic cups halfway with water. Uncap old markers and place them in the water with the tips facing down. Let the markers sit in the water for a few days. The longer the markers sit in the water, the more vibrant the colors will be!

**Water Coloring**  
Plastic Cups  

Fill plastic cups with the desired amount of water. Add food coloring to each cup and stir. More food coloring will create more vibrant colors.

**Baking Soda**  
Food Coloring  
Water  
Ice Cube Tray  

Fill the ice cube tray 3/4 of the way with baking soda. Add a few drops of food coloring and then slowly add water, mixing as you go. Continue to add baking soda and mix until each mixture is thick. Leave the ice cube tray out to dry for about a day, or put it in the freezer for a faster drying time.

---

**Sensory Bottle**

Bottle with lid  
Water/oil/dish soap  
Food Coloring (optional)  
Glitter (optional)  
Small toys/magnets/etc.  

Fill a bottle with water, dish soap, oil, or a combination of water and oil. Add food coloring or glitter and mix everything together. Help your child add small toys, magnets, or other small items to the bottle. Shake your bottle and explore how shapes move around inside!

**Oil and Water**

Jar/Bottle with lid  
Oil  
Water  
Dish soap  

Fill a jar about halfway with water. Add oil to the jar until you have about 3 inches left at the top.  

**LOOK!** The oil and water don't mix. Try to shake up the jar and note how the oil and water will separate.  

Now add dish soap to the mix. Do the oil and water mix?  

Science Tip: Oil is less dense than water, so it rises to the top. But dish soap is attracted to both oil and water, so it will make the two liquids mix!
Circle the words from the word list in the puzzle below.

**Underwater Friends!**

**WORD LIST**

- WHALE
- SHARK
- FISH
- EEL
- CLAM
- SHRIMP
- LOBSTER
- TURTLE
- DOLPHIN
- SEAHORSE
