Under the Sea

Two Hungry Sharks
Two hungry sharks swimming on a wave
One named Doroth, one named Dave.
Chomp chomp, Dorothy. Chomp chomp, Dave.
Swim away Dorothy. Swim away Dave.

Five Little Fishies
Five little fishies, swimming in the sea
Teasing Mr. Shark, "You can't catch me!"
Along comes Mr. Shark, quiet as can be
And snatches that fish right out of the sea!

Two Hungry Sharks
Two hungry sharks swimming on a wave
One named Doroth, one named Dave.
Chomp chomp, Dorothy. Chomp chomp, Dave.
Swim away Dorothy. Swim away Dave.
Tens Go Fish

Have fun with a game of go fish.
Play a traditional version, or this fun Tens Go Fish version to help with math skills.
https://www.whatdowedoallday.com/easy-math-game-tens-go-fish/

- Use a standard deck of cards, removing all face cards and 10s.
- Deal each player 5 cards.
- The remaining cards should be face down in the middle of the playing area. This is the "Go Fish" pile.
- Before beginning the game, look for pairs of cards in your hand that have a sum of 10.
- Place all cards with a sum of 10 face up on the table in front of you for everyone to see.
- Draw from the Go Fish pile to replace the cards so that you still have 5 cards in your hand.
- To begin, players take turns asking each other for their desired card.
  - Instead of seeking out pairs of cards, ask for cards that will help you create a set that adds to ten.
  - For example, if you have 2, 4, and 3 in your hands, you would ask for an Ace (value of one).
- If you receive the card you wanted, and you have another set of that adds to ten, place the set on the table.
- If you do not get the card that you asked for, the player must "go fish" and pick a new card from the deck.
  - If the drawn card helps create a set that adds to 10, the player will place that set on the table.
- If a player runs out of cards, they will draw 2 cards to continue playing.
- Play ends when all cards are used, or no more sets of ten can be created.

Under the Sea Salt Painting

https://inspiremyplay.com/ocean-themed-play-stem-and-craft-activities/

Supplies:
Salt, School Glue, Paper, Watercolor Paints

- Draw your under water scene using a bottle of school glue.

- Thicker paper is best.

- Sprinkle salt over the glue.

- Shake the excess salt off.

- Using your paint brush, dab or drip the watercolor paint directly onto the salt.

- Allow the painting to dry.
