

# Shapes Storytime

## Where is...?

Tune: Where is Thumbkin?

Where is triangle? Where is triangle?  
Here I am. Here I am.  
How are you today, sir? Very well, I thank you.  
Run away. Run away.  
(Circle, rectangle, square, diamond)

## How Can You Tell?

This is a circle.  
How can you tell?  
It goes round and round,  
No end can be found.  
This is a square.  
How can you tell?  
It has four sides,  
All the same size.

## Make a Circle, Draw a Square

Tune: Oh My Darling Clementine

Make a circle, make a circle, draw it in the sky  
Use your finger, use your finger, make it round as pie

Make a square, Make a square, make the lines so straight  
Draw a square, draw a square, draw one or draw eight

Draw a triangle, draw a triangle, always start at the top  
Make a tent, make a tent, use three lines and then stop!

## Perfect Square

## What is a Circle?

Now, what is a circle?  
Where can it be found?  
I know what it looks like,  
It goes round and round.  
It could be a Frisbee  
Or the top of a cake.  
It could be a pizza  
Or a cookie we baked.  
It could be the tire  
On a brand-new car.  
It could be a button  
Or the lid of a jar.  
Now, what is a circle?  
Well, you'll have to guess.  
A circle is something  
A little like this.  
(Form circle with thumb and finger).

## Twinkle, Twinkle Little Star

Twinkle, twinkle little star,  
How I wonder what you are.  
Up above the world so high,  
Like a diamond in the sky.  
Twinkle, twinkle little star,  
How I wonder what you are.

Twinkle, twinkle, little star  
Now stand up & and twinkle where you are  
Twinkle high, twinkle low  
Twinkle fast, twinkle slow  
Twinkle, twinkle, little star  
Now sit down & and twinkle where you are

## Lots of Dots

By: Greg Frazier

## Fun Shape Activities

Cut, tear, punch, shred pieces of paper to create new pictures like in our story, *Perfect Square* by Michael Hall or draw dots and create new stories like in our story *Lots of Dots* by Craig Frazier

Go on a shape walk in your neighborhood! Point out and discuss different shapes you see all around.

Use sidewalk chalk or tape to lay out shapes on the ground, move to the next shape by saying out loud the shape you've hopped to.

Use old cereal boxes to cut out shapes and create a fun puzzle you can decorate
