

We Love Pizza!

Pizza Mouse by Michael Garland

How Many?

Math is everywhere, even on your pizza! The next time you eat a pizza, take a look at it with your mathematician hat on. How many different types of toppings are on it? How many different shapes? Take a look at the pizzas on this paper? What can you count?

Pizza Fact

The first pizza was made in Naples. Italian pizza has a thin crust and fewer toppings and is baked in an oven heated with wood. Pizza Margherita is one of the most popular kinds and is made with mozzarella cheese, basil, and tomato sauce. Another favorite is quattro stagioni, made with a mozzarella and tomato sauce base and topped with four different sections of mushrooms, artichokes, black olives, and ham.
