

Wonders In The Sky

You Are My Sunshine (Lullaby)

You Are My Sunshine
My only sunshine
You make me happy
When skies are grey
You'll never know, dear
How much I love you
Please don't take my sunshine away

I'll always love you
And be there for you
I'll protect you from harm's way
'Cause I adore you
You're my dream come true
You're my beautiful sunshine

You Are My Sunshine
My only sunshine
You make me happy
When skies are grey
You'll never know, dear
How much I love you
Please don't take my sunshine away

Science Fact!

Never look directly at the sun!

Even though the sun is roughly 92 million miles away, looking directly at it can cause serious damage to your eyes. Even during a total eclipse, you need to make sure you are using protective eyewear called "eclipse glasses" to safely look at the sun.

Cloud Watching

Watching clouds together is a great way to relax, and encourage creativity.

Can you find clouds that look like animals? Do any clouds look like a flower?

What else do you think the clouds look like?

"Reach For The Stars"

"Reach for the stars" is an idiom. An idiom is a phrase that means something different than what it says.

When someone tells you to "reach for the stars" they don't really want you to stretch and try to touch the stars. They want you to work hard to reach a goal that might seem challenging.

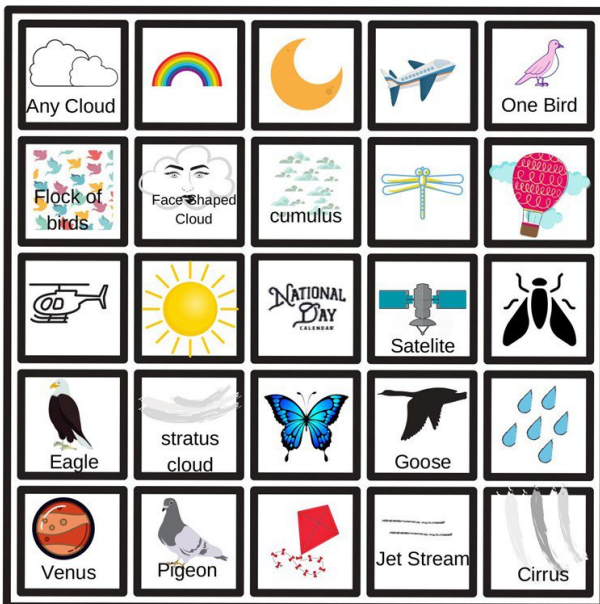

In what way have YOU "reached for the stars" before?
