

KCLS Trivia Quiz Night FAQs

Zoom Settings

- The program will be conducted in Zoom. If you would like to download Zoom before the program starts it's easy to do so in your app store or on the web. It is not necessary, however.
- Everyone but the host will be muted throughout the trivia to cut down on chatter
- Please do not put answers or your scores in the chat box, unless directed otherwise.

Team Play

- Your team can be just you, your entire family, or a group of friends. Teams should not use chat to communicate about answers. Instead, yell across the room, facetime, text, or use messenger to discuss questions with your teammates.

Rules of the Game

- There will be four rounds of trivia with 10 questions each, generally.
- Each question will be read twice and players will have a bit of time to wrack the last corners of their brain before moving on to the next question.
- At the end of each round, we'll put up a slide with all the questions to give you a little bit more time to consult with your team members before you submit your score. Please put something in the chat if you need more time to decide!
- There will be a break midway through to tally scores and give you a chance to stretch.

Scoring

- Unless otherwise noted, each correct answer to a question will give your team one point.
- Teams will be self-scoring, so have a piece of paper, a word document or a phone handy to record your answers.
- Try to think of a fun team name before coming to the program, even if you are playing as a team of one!
- Designate a single score submitter for your team before the play begins!
