### Read Aloud Stories

As you enjoy these read aloud stories with your child, ask them open-ended questions about the stories. Open-ended questions help children to think more deeply about the world around them.

## Fun Activities To Try At Home!

Animals need to see doctors just like we do when they get sick or hurt or just need a checkup. Animal doctors are called veterinarians. Pretend your stuffed animals need to see a veterinarian. Take their temperature, listen to their heartbeat or bandage their injured paw. Draw a picture of how you helped your stuffed animal feel better.

Paper shape animals are fun and easy to make! Choose what animal you would like to make and cut out circles, rectangles, squares and triangles. Put the shapes together to make your favorite pet. You can look online to find ideas or use your imagination and create a brand new pet.

You can also make shape animals using hearts like in Michael Hall's book, [My Heart Is Like a Zoo](#).
