

Libby

by OverDrive

Libby is a library app created by the makers of OverDrive. The app is available for your smartphone, tablet, or computer, and works with iOS, Android, and Windows 10. Libby allows you to browse, borrow, and place holds on e-books and audiobooks available through Halifax Public Libraries. All you need is a library card.

Should I use Libby or the existing OverDrive app?

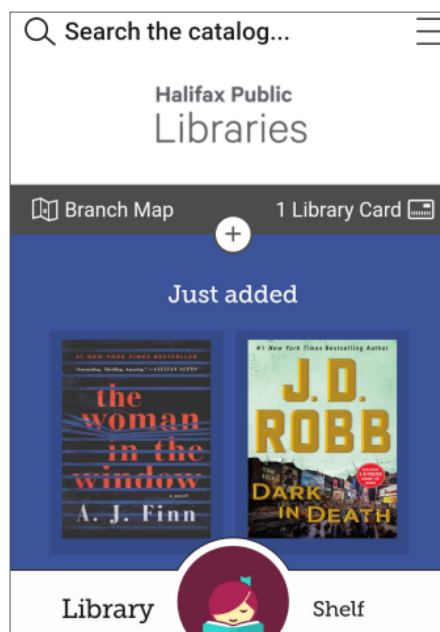

Libby and OverDrive provide access to the same digital library collections. Both Libby and OverDrive allow you to sync your bookshelves, progress, and bookmarks across multiple devices. Libby is not compatible with screen readers, so users with print disabilities will want to stick with the OverDrive app. Libby is recommended for all new e-book and audiobook users.

Using the app

1. Install the Libby, by OverDrive app from your device's app store.
2. Open the Libby app and find your Library. **Search** by library name, city, or zip code.
3. Tap **Add Your Card**. Sign in with your library card, your OverDrive account, or your Facebook account. *Note: You can add multiple library cards from different libraries.*
4. Search the Library's collection and borrow a title.

Searching

- Scroll down the page to browse a selection of featured content and explore the Library's collections by subject.

- To filter books by availability, language, audience, or software compatibility, tap the plus sign in the middle of the screen.
- If you already know what you'd like to read, **Search the catalog...**
- Borrowed titles appear on your **Shelf**.
