

6/26/20

**Updated Hotspots & iPads FAQ:**

**What is the status of iPads & Hotspots that were checked out before the closure?**

Now that the Library District is fully open, we are no longer extending the use of iPads and Hotspots. These electronic devices were disabled after three days after the Library District's official reopening date of June 24, 2020. Please have customers return these items to the library right away. Once the customer returns their items, they may request to have their late fees waived.
