“The normal norm as we know it has disappeared.”

“This pandemic is scary, I’m a stay at home And a mother of four girls and before all this started I was dealing with family problems. When this pandemic hit I had to go into overdrive and deal with the situation ahead. The normal norm as we know it has disappeared. Telling the kids that we cannot go to school, malls are closed, parks closed, distancing with our friends and families was sad. I felt guilty as a mother to see their faces scared and unsure. I myself felt lost and scared but I needed to be strong for them. I’m praying to God that he sees us and helps us through this challenging time.”
