## **Our World**

Why can't the west see eye to eye with the east?

Why must we be better than our neighbours?

Why must we have more than our fill?

Why are there wars?

Why is there poverty?

When the viral pandemic strike

When panic hoarding set in

When the world is in a lockdown

When many will die

When a cure is found

Will we be more compassionate to each other?

Will the rich stop exploiting the poor?

Will the strong stop oppressing the weak?

Will we take better care of the environment?

Will we keep blowing in the wind?
