“I miss them and cannot wait to see them again!”

“I miss my customers at the Thornhill Village Library. Through email, I am in touch with my book club members. I wonder how my other customers are doing. They all have different reasons to visit the library: reading the daily paper, picking up their holds, studying together, getting movies and bringing their children to play in the children's area. We are a place to come, meet and socialize. I take pride in knowing my customers. They are part of my extended family. I miss them and cannot wait to see them again!”
