“There are so many challenges I have to face during this time. ”

“There are so many challenges I have to face during this time. I have to face challenges like staying home and not seeing my friends and teachers this is a challenge for me because i got used to seeing my friends everyday this is one of the challenge i have to face because i think that it is very hard to stay away from my friends and teachers.I also have to stay home to prevent the spread of COVID-19.This is a big challenge for me because i am not used to staying home for weeks. This can also be a challenge for others including my classmates and friends. I also think that I face a lot more challenges during this time rather than a normal period of time.This includes being bored etc.I also think that this is a challenge for me because i am now watching more tv (technology) because i am bored. I am not used to this because I usually spend about 2 hours of tv everyday before COVID-19 starts. Now I feel like I am watching double the time of technology now. These are most of the challenges that i had to face during this time. .”
