“I am not used to this online school thing and I don't really like it and like it at the same time.”

“COVID-19 has changed my daily life because I am used to waking up at like 7am because I need to prepare for school. When quarantine happened. I have to stay physically healthy and stay fit and I usually do that when I go back home from school but since we can not go outside I have to change the way I have to stay physically healthy and I am not used to doing it inside my house. So my family bought a treadmill so my family and I can stay physically healthy and fit. Also I am not used to this online school thing and I don't really like it and like it at the same time. I don't like it because I like to see how the work is done and not what I have to figure out myself. I like it because I can do it whatever time I want to do it and I can just take breaks anytime I want to. ”
