**“I don't spend most of my days with my mom since she is a Long Term Care worker and a Receptionist at a Doctor's Office.”**

“During the COVID-19 pandemic, I have been doing my part to stay home, maintaining physical distancing when I go out, catch up on some sleep, and taking care of my grandma that is in self-isolation at home. During the day, I would spend some time doing some schooling since all schools are closed and all the in-person sitting has turned into virtual schools. When I'm not doing school, mostly on weekends, I would play games on my Nintendo Switch such as Minecraft and Mario Kart 8 Deluxe, and also mobile games. I don't spend most of my days with my mom since she is a Long Term Care worker and a Receptionist at a Doctor's Office.”
