“I am 5 years old and in my final year of kindergarten..What I enjoy the most is to spend more time with my sister to play. ”

“I am 5 years old and in my final year of kindergarten. I have been doing home school at home since mid-March. I started to use computer for everything - learning, games, meeting with my teachers and friends, dance classes, parties, camps, and even my upcoming graduation ceremony.

What I enjoy the most is to spend more time with my sister to play. However, I still miss my school, teachers and friends. I wish I could go back to my school to study again but I know I will be joining my older sister to attend grade one in a new school. Home school seems so long and it never ends.”
