**“I have read the book Wonder about 4 times during the break.”**

“It [the pandemic] changed my life because now I have to stay home and learn, which isn't a bad thing. Personally I think that it is a good thing because I am lazy. I have discovered some ways to keep me from being bored. I have read the book Wonder about 4 times during the break. I also have played video games. These are some things I do to keep me from being bored.”
