**“Do not touch things when you are in a store, always remember to put on hand sanitizer when entering or leaving a store. Stay away from people 2 meters or 6 feet.”**

Coronavirus is a dangerous virus that spreads all around the world.

It started in December 2019 in Wuhan China.

You can get Corona Virus by touching your eyes, mouth, picking your nose and touching your face.

We can protect ourselves from Corona Virus by when you are in a store make sure to wear a mask and a pair of gloves, do not touch things when you are in a store, always remember to put on hand sanitizer when entering or leaving a store. Stay away from people 2 meters or 6 feet.

Coronavirus middle name is Covid19 because cov means a viral virus, ID means identity , 19 means it happened in 2019.

Covid19 is the most dangerous virus until now.

Because of Covid19 you can't see your friends.

Because of Covid19 you can't go to the park.

Because of Covid19 you can't play with your friends.

I feel sorry for the people who died.

I hope scientists make a vaccine to kill the virus.

I hope our lives come back to normal.
