“It seems like since this pandemic started everyone seems to be a lot nicer.”

The pandemic has changed my daily life a lot and probably other lives too. I haven't experienced much but i do know that since covid-19 started I didn't usually have a lot of things to do and I couldn't go to stores without a face mask. It seems like since this pandemic started everyone seems to be a lot nicer. So I decided to help my neighbour by giving him some extra face masks we had and we thought that it would help him a lot.
