**“Nowadays, I can help my mom cook lunch and dinner and my dad with gardening once I finish my work. If I ever have to go back to school, I bet there would be plenty of changes. I think students would have to wear a face mask and gloves and there would be a few students at a time in class to maintain physical distancing. I don't mind about these changes because as I said before, I miss my favorite teachers and wonderful friends.”**

My life has changed tremendously ever since the start of Covid-19. It has changed my routine, school life, and family time. Before this Covid-19 pandemic began, I had a routine. I would wake up early and go to bed on time, but now I could wake up and go to bed at any time. It is hard to follow this routine since there is no school. Another thing that has changed in my life is my school life. During school time, I would be very busy and I enjoyed it. I would do my school work at school

and play with my friends at recess and after school at the park. I can't do that anymore and I miss my friends and teachers a lot. Also, I miss my

class interactions. I used to interact with my classmates and teachers a lot. Now, I can only meet them in person and it is not the same as meeting them in person. I used to write my assignments and hand them in, but now I have to do my work on the computer and hand them in online which I find is very boring. Thanks to Covid-19, I can learn to type faster and with no errors. Even though the Covid-19 has changed my life in an impecunious way, the only good thing I like about it is that I get to spend some quality time with my family. Before the Covid-19 started, I would go to school and not see my mom and dad during the day time. After school, I would have to do my work and I don't spend as much time with them. Thanks to Covid-19, it has changed. Nowadays, I can help my mom cook lunch and dinner and my dad with gardening once I finish my work. If I ever have to go back to school, I bet there would be plenty of changes. I think students would have to wear a face mask and gloves and there would be a few students at a time in class to maintain physical distancing. I don't mind about these changes because as I said before, I miss my favorite teachers and wonderful friends. Hopefully, I would get past this despicable virus and my life would change back to normal.
