**“So now, let me tell you how my relationship with family and friends have changed. With family...I usually fly to Romania every summer, but my flights are cancelled! Now, just thinking, when I was in Romania, I wanted to spend my summer in Canada...I’m going to miss my family, my 2 dogs and my cousin. I wasn't ready to spend my summer in Canada.”**

Today I’m going to talk about my story during Coronavirus. As all of you know, everyone is stuck at home, and you might wonder what other people are doing during isolation. Well, here is what is happening to me. This is how my routine has changed.

Since I can start online school after my morning routine, I wake up at 8:15 a.m. When I’m done with all my morning chores, I don’t have to pack up my bag or go to school! Also, I don’t have to do homework late at night or go to sleep as early as before. Isn't that cool! Anyway, moving on to what I missed the most.

#1, Friends of course! I totally miss them! I haven’t seen my friends in months!

#2,Family. I mean, who wouldn’t miss their family? I haven’t seen them in more than 3 months! 3 MONTHS! That’s a long time.

#3, Playgrounds. I feel like kids can’t live their childhood without parks!

#4, School. I mean, even though I have this super cool routine, I’m always staying in front of the computer all day!

#5, Normal life! I know everyone is missing their normal life, but I think kids need their normal life more than others do. It’s like, They can’t go to places,

(disney, playgrounds, etc) play on beaches, or hang out with family and friends.

Ok, now lets see what activities I'm keeping myself busy with. Here is a list of things. Baking, family time, biking, walking through forests, so far visited 2 friends, movies, TV, painting/drawing, online school, doing the dishes, helping with dinner, folding laundry and texting and facetimeing with family and friends.

So now, let me tell you how my relationship with family and friends have changed. With family.. I usually fly to Romania every summer, but my flights are cancelled! Now, just thinking, when I was in Romania, I wanted to spend my summer in Canada. But, I realized I was wrong because now I regret that I can't go there this year. I'm going to miss my family, my 2 dogs and my cousin. I wasn't ready to spend my summer in Canada. Anyway, I have to facetime them or see my new dad's side of the family, while social distancing. Ok, ok, I know you want some positives, so here you go.

The positive things I do with my parents are having more family time and understanding my parents better. Here's the change with friends. I can only facetime/text or see them While social distancing. By the way, I hadn't had a chance to see my school friends. I miss them so much.

The things I'm trying new with my mom and dad are baking,doing a fashion show in my mom's clothes,Friday nights playing board games and watching movies, looking for houses to move in, making hamburgers in our apartment,watching different baking and cooking shows, biking, shopping online, seeing how much my mom works, and having to be quiet while we all have meetings.

Now, I'm going to talk about what my community has faced, as everyone might experience. They have done social distancing, online school, wearing masks and making sure they train their dogs and children to social

distance. Finally, my last idea. The things I think I will be doing when I go back to school are having our desks spread out, wearing masks, going home for lunch, not playing with our friends, trying not to touch toilet seats, having a teacher see if we wash our hands and not having pizza, Mr.Greek, Mr.Sub or pasta lunches. Continuing with what I think...we would have to make sure to put our names on anything that could be found in the lost and found, having no gym or art, and having smaller classes.

Thank you for listening to my story of how my life during Covid-19 has changed.
