**“When I go back to school next year, I will try to get good marks in every test (100%). I will listen to teachers carefully. When I see any mistakes in test and practice work, I will correct them, and I will read questions carefully before doing the questions.”**

When covid-19 came to the world, I have seen so much change in the communities. And here are the changes in the communities. When we went outside to have a walk there were people wearing masks to protect themselves. The people also keep social distancing to prevent from getting covid -19. We also didn't chat with people.

I also miss something that I really want to do, like playing soccer at school, and I also miss playing games in parks with my friends. I wish I could do these things again, But I think it will take a long time. Instead we went to the gym in the basement and chatted with my family. A VERY sad thing is that I couldn't go to school. I couldn't play with my friends on this beautiful day, and cannot do all the fun activities in school ! Now we can only meet on computers.

THE only communication that we use to talk is Chinese and English. There was something that myself and me and my mom tried. I tried to get used to computers and me and my mom make buns and steamed bread. It was fun! I enjoy it!

At this time, there were fewer planes in the sky. There are also less people in parks. People in the community didn't invite people for parties. We also didn't visit friends.

When I go back to school next year, I will try to get good marks in every test(100%). I will listen to teachers carefully. When I see any mistakes in

test and practice work, I will correct them, and I will read questions carefully before doing the questions.

I wish covid-19 is gone as soon as possible, then I can do the fun activities again.
