The Library received the following email from a frequent library guest.

"There is no way for me to truly measure the impact that Hoopla's audiobooks are having on my life. It's incredibly valuable for me to be able to listen to books over and over again. Every time I hear a word that I've never heard before I can click on PAUSE and immediately look up the meaning of the word.

The Frisco Public Library has not only been a safe place, it's been a way for me to continue to enrich my life. Between keeping up with friends via e-mail, learning a new language via Mango Languages, and now, through Hoopla's audiobooks...

If I could gather all the library staff together in one place and give them all one big group hug I would do so. Thank you! I love my library! I'm so blessed to be a Frisco Public Library card holder.

Most sincerely and respectfully, K."

## Overheard at the Library

A mom who'd been at the Library for a few hours with her kids offered Chick-fil-A for lunch if they would leave. The response, "But Mooooooooooooom, the Library is so much better than Chick-fil-A!" Yes. Kids choose the Library over waffle fries!

## Mission:

We enrich lives by inspiring intellect, curiosity, and imagination.
