THE PUBLIC LIBRARY OF CINCINNATI AND HAMILTON COUNTY FACILITY MASTER PLAN

REPORT PART II | JANUARY 7 2020
SOUTH EAST PLANNING ZONE
Anderson, Hyde Park, Madisonville, Mariemont, Mt. Washington, Oakley

cincinnatilibrary.org/NextGenerationLibrary
SOUTH EAST PLANNING ZONE
Five planning zones were established by the FMP consultant team for orientation and organizational purposes. Customer mapping revealed travel patterns of library customers, and was used to inform the determination of boundaries between zones.

The consultant team gathered data produced by OrangeBoy, a customer analysis service, to identify area demographics, such as population size in a branch library’s Area of Dominant Influence (ADI), local economic trends, and other aspects that could influence decision making. Each planning zone totals its constituent branch ADIs.

In Part II of the FMP, each of the library’s five planning zones are summarized in two-page spreads. On the left-hand page, the zone map reflects branch locations, population distribution, and key geographic features. Below that, branch tiles summarize each branch’s key data and improvement recommendation. At the upper right of the spread, a table compiles the recommendations for each of the zone branches. This is followed by a narrative profile of the zone and maps showing facility age, accessibility issues, and zone-specific customer travel patterns.

The Zone Profile is a useful tool in understanding how the branches within each Zone work together to provide a full range of services to residents.
The Branch Summary sections aim to identify specific needs and opportunities for each Library facility (with the exception of the recently-completed Distribution Center). The top left corner of each branch summary spread includes a photograph of the branch, proposed FMP strategy, proposed typology, and, where applicable, whether the facility is leased. A narrative project description summarizes facility condition, findings from community engagement, facility recommendations, and long-term vision.

At the upper right of each spread, the branch is mapped as the center of its network, with travel distances indicated. An adjoining table compiles the FMP recommendations and distance of each branch in close proximity to the subject branch. This tool is useful in understanding how the Library branches interface as part of a larger system.

Specific project data are also provided, such as the branch site plan, floorplans, and images of the interior space. Recommendations are made for both the interior and the exterior, as well as for capital maintenance issues that the Library Facilities Department has identified. Special focus is given to accessibility and equity.

**SOUTH EAST ZONE PROFILE**

The South East Planning Zone covers the geographic area that is located south of Highway 71 until the edges of Hamilton County. The zone is characterized by a varied geography, low population density, similar social characteristics (middle class and higher income groups), and – with the exception of the Madisonville area – the least diversity. The zone has experienced a gradual decline in population since 1970, and is one of the regions in Hamilton County least served by public transit connected directly to the City of Cincinnati. The Library operates six branches in this South East Planning Zone, with an approximate total of 50,000 square feet of library space for a population of about 110,000. The areas served by this Zone include Anderson, California, Camp Dennison, Cherry Grove, Coldstream, Columbia-Tusculum, Dry Run, East End, Fairfax, Forestville, Fruit Hill, Hyde Park, Linwood, Madisonville, Mariemont, Milford, Mt. Lookout, Newtown, Oakley, Plainville, Salem Heights, Terrace Park, and Turpin Hills.

Customer mapping shows that the area is well served by its current branches, and that customers who are able tend to travel among them to meet their needs. The 10-year plan aims to leverage the flow of customers throughout the zone and create a cohesive network that better serves it.

Following the equity-prioritized approach of the Library Facility Master Plan, two options are recommended for Madisonville – either for an extensive renovation, or for a relocation to an adjacent planned development. Anderson and Oakley are planned to receive a Strategic Investment, while the recommendations for Hyde Park, Mariemont, and Mt. Washington address maintenance issues along with specific investments needed to improve provision of services.

Taken together, these changes will provide a variety of updated spaces for residents of this zone and support a full range of traditional and contemporary services.
The Anderson Branch Library opened in June 1981. In 1988, 5,000 additional square feet of space was added to the building, and it was again expanded in 1998. Its series of additions have made the interior of the branch somewhat disorienting to navigate. The Anderson Township Library Association plays an important role in supporting the services and resources of the Anderson Branch. With the exception of a steeply graded parking lot, no barriers to public accessibility have been identified at this branch. Due to the somewhat peculiar shape of the land parcel and complex topography, expansion capabilities at this site are quite limited. The library does have a dedicated on-site parking lot. The branch is also served by one metro route.

The Anderson Branch Library’s Area of Dominant Influence contains a population of about 43,600. This branch has a meeting room with a 58-person capacity which can be divided into two meeting rooms. Its exterior book drop is used by many of its customers. This branch predominantly serves customers who are staying for less than an hour. Public computer access is in high demand and tutor groups are in all year round.

COMMUNITY INPUT
- Develop dynamic, engaging, and flexible spaces with particular focus on senior services and social spaces for community use
- Delineate spaces for kids/teens/adults with particular focus on designated quiet/noisy spaces
- Increase access by improving parking and entry into the branch as well as layout and wayfinding in the branch

RECOMMENDATION
As the recipient of a Strategic Investment, the Anderson Branch has the opportunity to improve its existing facility and enhance service. A process led by Library staff with community input will identify how this investment should be made.

LONG-TERM VISION
Beyond the recommendations of this FMP, as additional funding becomes available, the library may explore opportunities at this branch such as improving accessibility and renovating the internal design and layout of the branch. It may also be more sustainable to reimagine the facility entirely from scratch or evaluate relocation opportunities as they arise, which could offer a sustainable future for this branch.

Anderson and its surrounding communities are experiencing new housing and local business development. The Library remains active and responsive as a long-standing member of an ever-growing community and will consider these and other surrounding developments as it engages in opportunities for growth.

HYDE PARK

CAPITAL MAINTENANCE + STRATEGIC INVESTMENT

NEIGHBORHOOD

The Hyde Park Branch Library is one of the original nine area libraries in Hamilton County built with funds provided by the Andrew Carnegie Foundation. In 1970, the branch underwent an extensive expansion and renovation project which included a drastic change to the exterior of the building. Its multi-level design presents service challenges. The facility’s age limits its ability to support new service models and technology upgrades. The elevator at the location to transition between levels is far too small for contemporary accessibility standards. The extreme topography of the existing site makes renovation or expansion on the current property challenging and costly. There is a dedicated parking lot on site and limited public street parking exists nearby. This location is also served by three metro routes.

The Hyde Park Branch Library’s Area of Dominant Influence contains a population of 19,588. This branch has a meeting room with a 25-person capacity. There is no additional group study, makerspace, or tech area. This branch sees a variety of service demands depending on weather and season but regularly sees quick visits picking up holds.

COMMUNITY INPUT

- Develop dynamic, engaging, flexible, and inclusive spaces with particular focus on increasing social spaces for community use and community partnerships
- Activate outdoor spaces with particular focus on safety and walkability
- Improve accessibility
- Noted desire to keep current building with desire to update/renovate/repurpose as well as recapture more natural lightingly

RECOMMENDATION

As the recipient of a Capital Maintenance project, the Library’s Facilities Department has indicated its need for elevator replacement. It is also recommended that this branch receive a Strategic Investment. A process led by Library staff with community input will identify how this investment should be made.

LONG-TERM VISION

Beyond the recommendations of this FMP, as additional funding becomes available, the Library may explore opportunities at this branch to diversify services offered and spaces available. It may look for opportunities for relocation in a nearby central location to allow full accessibility and expanded facilities.

Hyde Park and its surrounding communities are seeing developments of apartments and condominiums as well as additional retail and new cluster housing. The Library remains active and responsive as a long-standing member of an ever-growing community and will consider these and other surrounding developments as it engages in opportunities for growth. Once the nearby Norwood Branch is renovated and expanded into a Next Generation-sized branch, the Library will evaluate whether customer usage changes for Hyde Park, and consider making further improvements or tailoring spaces and services based on customers’ evolving needs.

MADISONVILLE

OPTION A: MAJOR RENOVATION

OPTION B: RELOCATION

NEIGHBORHOOD

The Madisonville Branch Library is located in a 1925 Renaissance Revival style building on a civic block near the heart of town. Public service is limited to three rooms on the first floor plus a meeting room and staff spaces in the basement. Community members and local leadership expressed affinity for the existing building and desire to see it preserved, and many felt positively about a relocated library and the existing building being sold, renovated, and repurposed into a new use. This building has never had a major renovation and all building systems are out of date and needing to be upgraded or replaced. Customers complain of crowding and noise – symptoms of the very small size – and expressed a keen interest in a larger library with a broader range of services and spaces. No part of the building is fully accessible. There is no opportunity for expansion on the currently owned land at this location. There is no parking available on site but some nearby street parking is available. This location is served by three metro routes.

The Madisonville Branch Library’s Area of Dominant Influence contains a population of 4,030. There is a dedicated meeting room at this location which has a 55-person capacity. This branch predominantly serves children and teen customers for extended durations. Peak business occurs in early afternoons and late evenings.

COMMUNITY INPUT

- Develop dynamic, engaging, and flexible spaces with particular focus on family-friendly renovations, equity, and technology
- Delineate spaces for kids/teens/adults with particular focus on designated quiet/noisy spaces
- Noted desire to increase overall space in branch, but some would like to reimagine the library from scratch while others want to keep the historic building and increase its functionality

RECOMMENDATION: OPTION A

One option would be to adapt the present facility to be more accessible. Because of the very restricted site, it may be impractical to build an external elevator and restroom tower onto the existing building, as has been done at other branches such as Avondale and Corryville. Instead, it should be possible to add a new ramp, similar to that of Norwood Branch, making the existing Whetsel Avenue entry accessible to all. In this scenario, a new elevator and accessible restrooms would be added to the interior. The full building will need a major, and historically sensitive, renovation. The limitations of the existing architecture and service split between two floors makes for economically inefficient operations.

RECOMMENDATION: OPTION B

As a Design Project, it is recommended that the Madisonville Branch relocate. The site is too small to accommodate an addition. The local business district on the intersection of Madisonville and Whetsel is a possible site. Phase 1 of a mixed-use project is slated to open in 2019 with over 100 apartments and 20,000 SF of retail space, as well as off-street parking. There are three other phases of this development planned and a myriad of opportunities for the Library to occupy space in it.

LONG-TERM VISION

Beyond the recommendations of this FMP, as additional funding becomes available, the Library may explore opportunities at this branch such as future partnerships and a more diverse range of service space options for the community to gather.

Beyond the Madisonville and Whetsel development, Madisonville and its surrounding neighborhoods are seeing new businesses moving into the area. The nearby Med-Space expansion is also a recent development. The Library remains active and responsive as a long-standing member of an ever-growing community and will consider these and other surrounding developments as it engages in opportunities for growth. Once improvements are made to other branches in the South East Zone, the Library will evaluate whether customer usage changes for Madisonville, and consider making further improvements or tailoring spaces and services based on customers’ evolving needs.

First Floor

Basement

Floor plans
The current Mariemont Branch Library building was completed in 1972 on a one-acre site near the Mariemont High School. It went through a minor renovation in 2016 which gave the lobby a facelift. The small footprint of the space warrants more dynamic and flexible spaces for fluctuating demands. No barriers to public entry accessibility have been identified at this location. There is opportunity for significant expansion on the site. This branch has a dedicated on-site parking lot and it is currently served by two metro routes.

The Mariemont Branch Library’s Area of Dominant Influence is 14,291. This branch does not have a dedicated meeting space, group study room, makerspace, or tech space. There is less demand from customers for public computer access at this branch than at most others. This branch predominantly serves caregivers with children.

COMMUNITY INPUT

- Develop dynamic, engaging, and flexible spaces with particular focus on social spaces for community use including a meeting room
- Utilize outdoor spaces more effectively with particular focus on recapturing courtyard space
- Noted support for a drive-up return

RECOMMENDATION

As a Capital Maintenance Project, the Library’s Facilities Department has identified that the branch is in need of HVAC and electrical upgrades. It is also recommended that this branch receive a Strategic Investment to improve the current facility and enhance service. A process by led Library staff with community input will identify how this investment should be made.

LONG-TERM VISION

Beyond the recommendations of this FMP, as additional funding becomes available, the Library may explore opportunities such as enclosing the courtyard, renovating their current storage space, or expanding the facility to increase public service space and include a meeting space and group study spaces.

Mariemont and its surrounding communities are seeing a renovated high school nearby which has added a new access road right next to the library. Additionally, Hamstead Park is a luxury condominium development in the area. The Library remains active and responsive as a long-standing member of an ever-growing community and will consider these and other surrounding developments as it engages in opportunities for growth. Once improvements are made to other branches in the South East Zone, the Library will evaluate whether customer usage changes for Mariemont, and consider making further improvements or tailoring spaces and services based on customers’ evolving needs.

**Entrance**
In January 1958, the Mt. Washington Branch Library opened to the public. In 1998 it underwent a renovation where their meeting room was converted to additional common library space. The compact footprint makes noise and overcrowding prevalent issues at the branch. The facility’s constrained entrance vestibule sometimes presents access issues. The limited parcel size at the current location gives little to no opportunity for expansion on the current site. It does have designated parking on site; however, it has proven difficult and hazardous to navigate by many customers. It is served by two metro routes.

The Mt. Washington Branch Library’s Area of Dominant Influence contains a population of 15,210. There is not currently a meeting space at this branch, nor are there study rooms, a makerspace or tech space. This branch predominantly serves younger customers for longer stretches of time, using public computers. Many individuals come to read daily news as well as for tutoring. Storytimes draw many families with children as well.

**COMMUNITY INPUT**

- Increase access through more public parking and improved entry into the branch
- Develop dynamic, engaging, and flexible spaces with particular focus on technology and social spaces for community use
- Delineate space by activity with particular focus on designated quiet/noisy spaces
- Improve accessibility and layout of the collection and technology

**RECOMMENDATION**

As a Capital Maintenance Project, the Library’s Facilities Department has identified that this branch is need of HVAC and electrical upgrades. It is also recommended that this branch receive a Strategic Investment. A process by led Library staff with community input will identify how this investment should be made.

**LONG-TERM VISION**

Beyond the recommendations of this Facility Master Plan, as additional funding becomes available, the Library may explore opportunities at this branch such as improving parking or renovating the interior for more optimal performance, or seek opportunities nearby for locations which can better provide service to the neighborhood.

Mt. Washington and its surrounding communities are seeing a new pavilion development in Stanberry Park for concerts and other events. New developments including a brewery and apartment complex are also coming to the area. The Library remains active and responsive as a long-standing member of an ever-growing community and will consider these and other surrounding developments as it engages in opportunities for growth. Once the nearby Anderson Branch, which is the Zone’s Next Generation branch, receives its Strategic Investment, the Library will evaluate whether customer usage changes for Mt. Washington, and consider making further improvements or tailoring spaces and services based on customers’ evolving needs.

THE PUBLIC LIBRARY OF CINCINNATI AND HAMILTON COUNTY FACILITY MASTER PLAN, PART II

SOUTH EAST ZONE

OAKLEY

STRATEGIC INVESTMENT

NEIGHBORHOOD

The current Oakley Branch Library was completed and dedicated in May 1989. It has not seen major improvements since then. This facility is well-situated in a central location in the community. No barriers to public entry accessibility have been identified at this branch. The land parcel at this location has been maximized and there is currently no opportunity for expansion. It has a dedicated parking lot on site. Additional street parking is available. It is served by two metro routes.

The Oakley Branch Library’s Area of Dominant Influence contains a population of 6,949. This location does have one dedicated meeting room with a 35-person capacity. However, additional individual quiet and study rooms are not available. This branch predominantly serves local young professionals, students, and young families.

COMMUNITY INPUT

- Develop dynamic, engaging, flexible, and inclusive spaces with particular focus on increasing social spaces for community use
- Delineate spaces for kids/teens/adults with particular focus on designated quiet/noisy spaces
- Activate outdoor spaces with particular focus on safety and walkability

RECOMMENDATION

As the recipient of a Strategic Investment, the Oakley Branch has opportunity to improve its existing facility and enhance service. A process by led Library staff with community input will identify how this investment should be made.

LONG-TERM VISION

Beyond the recommendations of this Facility Master Plan, as additional funding becomes available, the Library may explore opportunities at this branch such as incorporating additional study rooms within the branch and repurposing some space, such as the large service desk, to provide more space for public use.

Oakley and its surrounding neighborhoods are seeing a lot of recent residential and commercial development. A $100M residential development planned by Neyer Properties, Inc., will be built on 30 acres in Oakley, just four blocks from the branch. The Library remains active and responsive as a long-standing member of an ever-growing community and will consider these and other surrounding developments as it engages in opportunities for growth. Once improvements are made to other branches in the South East Zone, the Library will evaluate whether customer usage changes for Oakley, and consider making further improvements or tailoring spaces and services based on customers’ evolving needs.
