

Addendum 1 for ITB No. 2020.03.30: Sno-Isle Libraries’ System Wide Pressure Washing Services

1. PROJECT DESCRIPTION AND SCOPE – April 2, 2020

Q: After going over the bid package, I see that there is no mention of water recovery, which is required by Federal, State, and Local laws. We have a custom-built pressure wash recovery system, which recycles the water. The wastewater is then disposed of in a sanitary sewer system. Our machine was well over \$50K and I want to be certain that I am not competing with vendors who may have a pressure washing system in place but where the wastewater is not recovered.

A: Sno-Isle Libraries’ expects vendors to abide by all Federal, State, and Local laws when preparing their bid and will award the project to the lowest-cost bidder who is deemed to be the most responsible and responsive to the request.

Additional Addenda will be released after the close of the Q&A period on April 10, 2020.
